School office 0191 6919876

St Cuthbert's Catholic Primary School Special Educational Needs and Disabilities (SEND) Policy

Introduction

St Cuthbert's Primary School has a named SENDCo (Ms L Shepherd, who is a member of the Senior Leadership Team) and a named Governor responsible for SEND (Mrs A Glen-Ravenhill). They ensure that St Cuthbert's Special Educational Needs and Disabilities policy works within the guidelines and inclusion policies of the Code of Practice (2015), the Local Education Authority and other policies current within the school.

This policy was created by the school's SENDCo with the SEND Governor in liaison with the SLT, all staff and families of pupils with SEND and has been shared with stakeholders, including governors, families, and parents/carers via the school newsletter and website. This policy should be read alongside other documents and school policies. It was originally developed in consultation with other SENDCos from the North Tyneside Catholic Schools Collaborative and developed in response to the 2014/15 SEND Code of Practice: 0-25 guidance. The policy was written with due regard to all relevant legislation including, but not limited to, the following:

- Children and Families/carers Act 2014
- Health and Social Care Act 2012
- Equality Act 2010
- The Equality Act 2010 (Disability) Regulations 2010
- Education Act 1996
- Education Act 2002
- Mental Capacity Act 2005
- Children Act 1989
- The Special Educational Needs and Disability (Amendment) Regulations 2015
- The Special Educational Needs (Personal Budgets) Regulations 2014
- The Special Educational Needs and Disability (Detained Persons) Regulations 2015
- Local Government Act 1974
- Disabled Persons (Services, Consultation and Representation) Act 1986
- Data Protection Act 2018
- The UK General Data Protection Regulation (GDPR)

This policy has due regard to statutory and non-statutory guidance, including, but not limited to, the following:

- DfE (2015) 'Special educational needs and disability code of practice: 0 to 25 years'

- DfE (2015) ‘Supporting pupils at school with medical conditions’
- DfE (2021) ‘Keeping children safe in education 2021’
- DfE (2018) ‘Working Together to Safeguard Children’
- DfE (2018) ‘Mental health and wellbeing provision in schools’
- DfE (2021) ‘School Admissions Code’

Aims and beliefs

At St Cuthbert’s, it is the belief that all children have an equal right to a full and rounded education which will enable them to achieve their full potential. High Quality Teaching (HQT) and other relevant provision through universal approaches is at the centre of how we approach all learning. We aspire to raise the aspirations of, and expectations, for all pupils with SEND. We will ensure that teachers are able to identify and provide for those pupils with special educational needs, allowing them to be included in all school activities.

Our aim is to secure special educational provision for pupils for whom this is required, either through “reasonable adjustments” or by targeted provision which is “additional to or different from” that provided within the adapted curriculum to better respond to the four areas of need identified in the new Code of Practice 0-25 (2015):

- Communication and interaction
- Cognition and learning
- Social, mental and emotional health
- Sensory/physical

What are special educational needs?

‘A child or young person has special educational needs if he or she has a learning difficulty or disability which calls for special educational provision to be made for him or her... A learning difficulty or disability is a significantly greater difficulty in learning than the majority of others of the same age... Special educational provision means educational or training provision that is additional to, or different from, that made generally for others of the same age in a mainstream setting in England.... Health care provision or social care provision which educates or trains a child or young person is to be treated as special educational provision.’

We recognise that our responsibility is, *‘to work out what action (we) need to take, not to fit a pupil into a category.’*

(Code of Practice 2015).

The school also recognises that the needs of high achieving children should be catered for and recognised as a ‘special educational need’.

Objectives

The objectives of this policy, working with the guidance provided in the SEND Code of Practice 2015, are as follows:

- to create an inclusive environment that meets the special educational needs of each child in order that they can achieve their learning potential and to be fully engaged in all activities with pupils who do not have SEND
- to respond to families/carers and pupils' views in order to evidence high levels of confidence and partnership
- to make clear the expectations of all partners in the process
 - to ensure a high level of staff expertise to meet pupil need, through universal as well as well targeted continuing professional development
 - to ensure support for pupils with medical conditions are included in all school activities by ensuring consultation with health and social care professionals
 - to identify the roles and responsibilities of all staff in providing for children's special educational needs
 - through universal approaches, reasonable adjustments and targeted support, to enable all children to have full access to all elements of the school curriculum
 - to work in cooperation and productive partnerships with the MAT, Local Education Authority and other outside agencies, to ensure there is a multi-professional approach to meeting the needs of all vulnerable learners.

Access to the Curriculum

All children have an entitlement to a broad and balanced curriculum, which is adapted through universal approaches and targeted support. We aim to enable children to understand the relevance and purpose of their learning and to experience levels of understanding and rates of progress that bring feelings of success and achievement.

Through high quality teaching, teachers use a range of strategies to meet children's special educational needs. Lessons have clear learning objectives and staff adapt work appropriately and use assessment to identify any emerging needs and potential barriers to learning as well as to inform the next stages of learning. Support Plans, for those with SEN, employ a small-steps approach, systems and processes effectively facilitate the "Assess, Plan, Do, Review" cycle and feature significantly in the provision that we provide. By breaking down the existing levels of attainment into finely graded steps and targets, we ensure that children experience success.

Equal Opportunities and Inclusion

At St Cuthbert's, we take a positive, holistic approach in supporting children alongside their peers. Our "ordinarily available" universal provision aims to be engaging, broad, balanced, accessible and inclusive to all, where "best endeavours" and "reasonable adjustment" are at the heart of our ethos and underpin our curriculum. Through early identification of need, we determine types of support suited to the individual through a graduated approach. Through all subjects we ensure that the school meets the needs of all, taking account of gender, ethnicity, culture, religion, language, sexual orientation, age, ability, disability and social circumstances. It is important that we meet the diverse needs of pupils to ensure inclusion for all and that all pupils are prepared for full participation in a multi-ethnic society. We also measure and assess the impact of our provision regularly through meetings with our SEND coordinator and individual teachers to ensure all children have equal access to success in all subjects.

Through appropriate curricular provision, we respect the fact that children:

- have different educational and behavioural needs and aspirations
- require different strategies for learning
- acquire, assimilate and communicate information at different rates
- need a range of different teaching approaches and experiences

Teachers respond to children's needs by;

- providing support for children who need help with communication, language and literacy
- planning to develop children's understanding through the use of all available senses and experiences
- planning for children's full participation in learning, and in physical and practical activities
- helping children to manage their behaviour and to take part in learning effectively and safely
- helping individuals to manage their emotions, particularly trauma or stress, and to participate in learning

Identification, Assessment and Provision

Provision for children with special educational needs is a matter for the whole school. The governing body, the school's head teacher, the SENDCo and all other members of staff, particularly class teachers and teaching assistants, have important day-to-day responsibilities. All teachers are teachers of children with special educational needs.

The school will assess each child's current levels of attainment on entry in order to ensure that they build on the patterns of learning and experience

already established during the child’s pre-school years. If the child already has an identified special educational need, this information will be transferred from other partners in their Early Years setting and the class teacher and SENDCo will use this information to:

- provide starting points for the development of an appropriate curriculum
- identify and focus attention on action to support the child within the class
- use the assessment processes to identify any learning difficulties
- work in partnership with families and carers to ensure close communication and information sharing to achieve good outcomes
- ensure ongoing observation and assessments provide regular feedback about the child’s achievements and experiences to form the basis for planning the next steps of the child’s learning.

Universal strategies in the classroom:

Teachers and teaching assistants have access to a wide toolkit of resources to support all pupils as well as those with SEND. The “Five-a-day principle (explicit instruction, the teaching of cognitive and metacognitive strategies, scaffolding, flexible grouping and the use of technology) ensures high quality teaching benefits all children, including those with SEND. Teachers use a variety of inclusion strategies in their teaching to support pupils’ access to the curriculum and, where necessary, adaptations are made to ensure it is accessible for those with SEND. Some examples are listed below:

Universal strategies for communication and interaction:

- Consistent approach to phonics to develop pupils’ phonological awareness
- Explicit teaching of vocabulary using Word Aware approach
- Now and Next boards, visual timetables and supports to reinforce verbal and written language

Targeted support for speech, language and communication needs:

Universal strategies for cognition and learning difficulties:

- Regular opportunities to develop basic skills across subjects
- Pre teaching and over teaching of vocabulary (Word Aware approach)
- Visual support resources
- Use of ICT (dictation and translation applications, voice recorders)
- Simplified texts, adapted reading resources/materials

- Consider use of targeted interventions and support from other agencies
- EYFS Blast 1 and Blast 2
- EYFS Over and Over
- Black Sheep Narrative Programme
- Specific time devoted to SALT NHS targets
- Language For Thinking
- Word Aware
- Time to Talk
- Socially Speaking
- Talkabout
- Comic Strip Conversations
- Kids Guide to Staying Awesome and in Control
- Social Stories
- Friendship Programmes

- Writing scaffolds, mind maps and word banks
- Paired work, collaborative groupings
- Dyslexia Team support for dyslexic traits and dyscalculic traits
- Pre/post-teach sessions
- Basic skills intervention
- We provide resources to support children with specific needs- e.g. practical maths apparatus, coloured overlays, reading rulers, sensory toys etc.

Targeted support for cognition and learning difficulties:

- Use of internal assessment tools relevant to the area of difficulty to plan for next steps in learning
- We access the expertise and advice of the North Tyneside Educational Psychology Service and the MAT EP in identifying learning difficulties and in developing specific targeted support
- We seek advice and assessments from The Dyslexia Referral Team, SALT, The Language and Communication Team and other agencies

	<ul style="list-style-type: none"> • We provide small group/individual support with a focus on literacy or numeracy skills, depending on need. • We use a range of ever-developing intervention programmes based on the needs of individuals and groups to improve literacy or numeracy skills- e.g. Blast, Boosting Reading, Time to Talk, Talkabout and Narrative Programmes. • Precision Teaching • Paired Reading • Dyslexia Programmes
--	--

Universal strategies for social, emotional and mental health needs:

- We provide excellent pastoral care for our children.
- When required, we create behaviour management plans where necessary, to ensure children can access the curriculum and all children remain safe.
- We use Pupil Passports to communicate specific needs when a child requires adaptation in certain social situations
- We complete risk assessments and then take action to ensure the safety and inclusion of all

Universal strategies for sensory, physical and medical needs:

- We request and act upon advice and guidance from the Occupational Health Service.
- We provide support and practical aids where appropriate to ensure pupils can access the curriculum.
- We seek advice and guidance from school health for pupils with significant medical needs
- We run intervention sessions to improve fine and

children, whenever possible, in all activities

- We put in place short term support for a child with a specific emotional need, for example, bereavement, trauma.
- When required, we run small group sessions with a focus on social skills (eg Socially Speaking, Time to Talk, The Friendship Formula or Talkabout).
- Specialist trained 'Thrive Practitioner' in school and low stimulus nurture room
- Compassion Matters lessons closely linked to PSHE, emotional literacy and Catholic life teaching
- We adopt a growth mindset approach and use solo taxonomy to develop ownership of learning
- Liaison with external professionals e.g. CAMHS/Educational Psychology Service re staff training and the needs of individuals

Targeted support for social, emotional and mental health needs:

- We seek the expert advice and support of outside agencies, including CAMHS (Child and Adolescent Mental Health Service), The Language and Communication Team and the Educational Psychology Service.
- Implement small group support
- Access to Nurture Room

gross motor skills, e.g. handwriting programmes.

- When it is appropriate we use ICT to enhance pupil's access to the curriculum.
- When required staff receive training in understanding the impact of a physical or sensory need on the teaching of learning of the child.
- An accessible site – all on one level
- Access to a first aid room
- High-quality facilities and ease of access to toilets and outdoor provision
- Challenging outdoor environment play-equipment to develop pupils' proprioception and gross/fine motor skills
- Supportive staff who are well-versed in providing for those with sensory difficulties
- Access to the Sensory Team for those with visual impairment/hearing impairment
- A sensory/nurture room
- Handwriting programmes
- Close liaison with Occupational Therapy

Targeted support for sensory, physical and medical needs:

- Accessibility plan implemented
- Consider Primary Care offer

- Develop check in routines with trusted adult
- Thrive approaches
- Maslow's Hierarchy of Needs
- Compassion Matters
- The Incredible 5 Point Scale
- Kids Guide to Staying Awesome and in Control
- Comic Strip Conversations

- Access to the Sensory Team for those with visual impairment/hearing impairment and follow adaptations required on an individual basis
- Support from HIVE
- Support from Community Disability Living Team
- Nort Tyneside Parent/Carer Forum
- Handwriting Without Tears
- Write From the Start
- OT programmes
- Use of regulation boxes

What other factors may impact on the progress of children aside from SEND?

- **English as an Additional Language (EAL)**

The identification and assessment of the special educational needs of children whose first language is not English requires particular care. Where there is uncertainty about a particular child, a teacher will look carefully at all aspects of the child's performance in different subjects to establish whether the problems are due to limitations in their command of English or arises from special educational needs.

- **Vulnerable Learners**

We recognise that some learners may be affected by other factors that may impact on progress and attainment.

- Attendance and Punctuality
- Health and Welfare
- EAL
- Being in receipt of Pupil Premium Grant
- Being a Looked After Child
- Being a child of Serviceman/woman
- Being part of a transient family
- Home/family circumstances

Any specific concerns relating to the child or young person's behaviour will be described as an underlying response to a need. The school recognises that this is not SEN and will respond to it appropriately after communication with families and carers and in-line with the behaviour policy of the school.

The role of the SENDCo

The Special Educational Needs and Disabilities Co-ordinator's (SENDCo) responsibilities include:

- Overseeing the day-to-day operation of the school's SEND policy
- Co-ordinating provision for children with SEND.
- Liaising with and advising colleagues.
- Overseeing the records of all children with SEND.
- Liaising with families of children with SEND.
- Contributing to the in-service training of staff.
- Liaising with other schools if the child is transferring to another school or provision and liaising with the new school if Y6 pupils are to transfer to Year 7.
- Liaising with external agencies including the MAT and LEA's support; educational psychology services; health and social services and voluntary bodies.
- Co-ordinating and developing school-based strategies for the identification and review of children with SEND.
- Making regular visits to learning environments within school to monitor the progress of children on the SEND support register.

Partnership with families/carers

Partnership plays a key role in enabling children and young people with SEND to achieve their potential. Families/carers hold key information and have knowledge and experience to contribute to the shared view of a child's needs. All families/carers of children with special educational needs will be treated as partners and will be given support to play an active and valued role in their child's education.

Children and young people with special educational needs often have a unique knowledge of their own needs and their views about what sort of help they would like. They will be encouraged to contribute to the assessment of their needs, the review and transition process.

We encourage families to make an active contribution to their child's education and have regular progress meetings each term with families; we share the process of decision-making by providing clear information relating to the education of their child.

Monitoring Children's Progress

The school's system for observing and assessing the progress of individual children will provide information about areas where a child is not progressing satisfactorily. Under these circumstances, teachers may need to consult the SENDCo to consider what else might be done. This review might lead to the conclusion that the pupil requires help over and above that which is normally

available through universal high quality teaching within an adapted curriculum and inclusive environment.

The key test of the need for action is that current rates of progress are inadequate.

Adequate progress can be identified as that which:

- Prevents the attainment gap between the child and his peers from widening.
- Closes the attainment gap between the child and his peers.
- Better the child's previous rate of progress.
- Ensures access to the full curriculum.
- Demonstrates an improvement in self-help, social or personal skills.
- Demonstrates improvements in the child's behaviour.

In order to help children with special educational needs, St Cuthbert's will adopt a graduated response. We will continually assess, plan, implement and review our approach to teaching all children. When a potential special educational need has been identified by the class teacher, an individualised assessment of need will begin. This will identify barriers to, and gaps in, learning which can then be addressed through a personalised approach. When any concern is initially noticed, it is the responsibility of the class teacher to take steps to address the issue. The class teacher, after discussion with the SENDCo, will then provide more targeted support/intervention which is additional to that provided as part of the school's universal offer and the child will be given individual learning targets. These targets will be monitored by the class teacher and teaching assistants within the class and reviewed formally with the SENDCo, families/carers and young person. If no progress is noted after a review period of a term, the child may be added to the school SEND register with parent/carer permission. School may need to consult external agencies for specialist help if the planned targeted support is still not having an impact on the individual's progress.

The school will record the steps taken to meet the needs of individual children through the use of a Support Plan and the SENDCo will record this on the SEN Register.

Reasons for a child being added to the SEND register may include the fact that he/she:

- Makes little or no progress, even when teaching approaches are targeted particularly in a child's identified area of weakness.
- Shows signs of difficulty in developing English and/or Mathematics skills which result in less than-expected attainment in some curriculum areas.

- Presents persistent emotional health and behaviour difficulties which are not improved by the behaviour management techniques usually employed in the school.
- Has sensory or physical problems, and continues to make little or no progress, despite the provision of specialist equipment.
- Has communication and/or interaction difficulties and continues to make little or no progress.

Within the termly school's cyclical process of assess, plan, do, review, a child's attainment and progress is rigorously monitored. If adaptations and targeted support have been successful and the child makes expected progress in line with their peers, then additional support/interventions will be withdrawn and the child could be removed from the register.

What is the Graduated Approach?

When considering a child's needs, we follow a graduated approach. This means looking at the individual needs of a young person and exploring options to help them to make progress.

The graduated approach is North Tyneside's approach to supporting children and young people who may have additional needs. There are three levels of support depending on the child or young person's needs. We use an Assess, Plan, Do, Review model to assess needs and implement appropriate support.

1. **Universal.** This is support that is available to all young people as part of the graduated approach.
2. **Targeted.** This is additional support that is available to support young people with specific needs. This level of support may require a referral to other professionals and have a criteria to meet to access support. Young people accessing targeted support should also continue to access universal support.
3. **Statutory.** This is specialist, statutory support for a small number of young people who require an EHCP. Young people accessing statutory level support should also have access to universal and targeted support.

Assess. This is when any possible needs are identified and assessed. These could relate to cognition and learning, language and communication, social, emotional and mental health or sensory and physical. Possible needs in these areas can be identified by school staff, other professionals, parents/carers and or young people.

Plan. A plan of additional support is put together by school and in agreement with parents/carers. This must be recorded, and a review date agreed.

Do. The additional support is implemented, with the relevant staff and/or other agencies involved.

Review. The impact of 'do' is evaluated. If a young person has made good progress, it may be decided that they do not require any further intervention. If progress is slower or no progress has been made, revisions will be made to the plan for the next cycle.

Other Professionals

These services may become involved if a child continues to make little or no progress despite considerable input and adaptations. They will use the child's records in order to establish which strategies have already been employed and which targets have previously been set.

The external specialist may act in an advisory capacity, or provide additional specialist assessment or be involved in teaching the child directly. The child's individual targets will set out further strategies for supporting the child's progress.

Outside agencies may become involved if the child:

- Continues to make little or no progress in specific areas over a long period.
- Continues working substantially below that expected of children of a similar age.
- Continues to have difficulty in developing literacy and mathematical skills.
- Has emotional or behavioural difficulties which regularly and substantially interfere with the child's own learning or that of the class group.
- Has sensory or physical needs and requires additional specialist equipment or regular advice or visits by a specialist service.
 - Has ongoing communication or interaction difficulties that impede the development of social relationships and cause substantial barriers to learning.
 - Despite having received intervention, the gap is widening between the child and their peers.

Support Plans (assess, plan, do, review)

Strategies employed to enable the child to progress will be recorded within a Support Plan which will include information about:

- The short-term targets set for the child.
- The teaching strategies to be used
- The provision to be put in place
- How the targets will help the child in their learning
- How the child can be successful

- The review date
- The child's views will be sought and taken into account, as will those of families/carers, whose support is vital if progress is to be achieved and maintained.

Statutory

Requests for EHCNA (Education, Health and Care Needs Assessment)

Should the strategies implemented at the level of School Support be considered ineffective, or requiring more in-depth advice, or greater level of support, we may request an EHCNA. School will provide the LEA with evidence of the interventions already undertaken over two cycles of the assess, plan, do, review process and will involve families/carers and children and professionals giving their views which will be collated and sent to the local authority.

The evidence will include:

- Previous Support Plans and targets for the pupil.
- Records of regular reviews and their outcomes.
- Records of the child's health and medical history where appropriate.
- Attainment in basic skills.
- Education and other assessments, for example from an advisory specialist support teacher or educational psychologist.
- Views of the families/carers.
- Views of the child or young person.

The families of any child who is considered for a request for EHCNA will be kept fully informed of the progress of the referral. Families can access support through the Parent Partnership in North Tyneside.

If a request for EHCNA is agreed:

An Education, Health and Care EHC plan is a legal document which describes a child or young person's (aged up to 25) special educational needs, the support they need, and the outcomes they would like to achieve.

An EHC plan:

- makes special educational provision to meet the special educational needs of the child / young person
- secures the best possible outcomes for them across education, health and social care
- prepares them for adulthood

An EHC plan includes 12 sections of key information, including:

- A-The views, interests and aspirations of the young person.
- B-The child's or young person's Special Educational Needs.
- C-Health needs related to their SEN or to a disability.
- D-Social care needs related to their SEN or to a disability.
- E-Planned outcomes for the child or young person.
- F-Provision for the needs mentioned in Section B.
- G-Any health provision.
- H1-Any social care provision that must be made for a child or young person.
- H2-Any other social care provision related to a child's SEN or to a disability.
- I-The name/type of school or setting.
- J-Details of any personal budget.
- K-Advice and information from the EHC plan assessment. .If, following an EHC needs assessment, the local authority decides an EHC plan is necessary, it must first write a draft plan. It will send you the draft EHC plan and copies of the reports so that you can read it all.
- When the local authority receives a request for an EHC needs assessment – this is the start date.
- The local authority decides whether an EHC needs assessment is needed within 6 weeks of the start date.
- The EHC needs assessment starts as soon as the decision is made.
- If the local authority decides to issue a plan, they will send a draft EHC plan to families or the young person. Families can agree to the draft, ask for changes and/or ask for a meeting. Families/young person have the right at this point to state a preference for an early years/school/post 16 setting. These must be done within 15 days of receiving the draft EHC plan.
- The local authority then consults with the early years/school/post 16 setting within 15 days of the response to the draft EHC plan.
- The local authority must issue the final EHC plan within 20 weeks of the start date. Contact with the SEND Team can be made should the

assessment process be rejected or the plan disputed. Independent advice can be sought through SENDIASS.

EHCP Annual Reviews:

This is an opportunity to look at the impact of provision and to review and update targets and outcomes collaboratively.

Four main parts of the review process

1. Gathering views and information – your child’s views, your views and those of the professionals involved
2. A review meeting where those views are shared and discussed
3. Writing a report and recommendations based on the information and views that have been shared
4. Deciding whether the plan should stay as it is, be changed or come to an end – and then changing the plan if needed.

Pupil Passports

These are one-page pupil profiles created as the result of meaningful discussion between a child and teaching staff. They summarise the information children wish to share with other adults they meet in their daily school routine. This summarises any additional needs a child may have and how best to make their day “a good day”. Children need not be on the SEN register but may benefit from sharing their approaches to learning or socialising with others in school.

Allocation of resources

The SENDCo is responsible for the operational management of the specified and agreed resourcing for special needs provision within the school, including the provision for children with Education Health and Care plans (EHCPs). The headteacher informs the governing body of how the funding allocated to support special educational needs has been employed.

Storing and managing information

All SEND documents are treated sensitively in-line with the school’s information management and confidentiality policy.

Admission and Transition

Admissions to Reception:

All of the information that families need in order to apply for a place at St. Cuthbert's Catholic Primary School can be found on 'North Tyneside Council School Admissions' site.

Arrangements for supporting pupils moving between phases in their education:

We take transition of SEND pupils seriously and have comprehensive measures to ensure that information is passed onto the child's next education provider (meetings with high school SENDCOs and Ms Shepherd take place in the summer term). These measures are compliant with the school's GDPR policy. For those pupils who are dual-registered, we will help to broker transition between education establishments to support children's welfare. In the summer term, we identify those children who may require additional support and plan specific activities to ease the move as much as possible in collaboration with our feeder schools (St Thomas More Academy, for example, plan "Scavenger Hunt" activity days as well as the two full transition days in July). Transition reviews for those children with EHCPs take place in the Autumn term.

Accessibility

The school's accessibility plan is available to view on the school website. Our site is on one level and disabled toilet facilities are located near EYFS. Where necessary, we have purchased specialist equipment e.g. changing tables.

Off-site activities

Staff arranging an offsite trip will discuss with families and the SENDCO any requirements needed and the suitability of any trip which the school is taking part in. We will then discuss any additional requirements that we will need to put into place to ensure that all children can take part. We support children on off-site visits and are flexible in our approach to residential visits. (Equality Act 2010 Guidance).

Additional Support

School openly welcomes families/carers to activity mornings, after school clubs, coffee mornings, after school information sharing meetings (on reading, online safety, out of school visits etc). Families/carers evenings take place each term, in addition to Support Plan Meeting Days and Annual Reviews. Staff are always available to meet with families throughout the year to discuss any concerns and appointments can be made to meet with the SENDCO

either directly with Ms Shepherd, or via the school office. Children with medical needs are supported on an individual process and include reviews with families and professionals. (See website Supporting children with medical conditions policy).

Provision monitoring and evaluation

The SENDCo monitors the movement of children within the SEND system in school and provides staff and governors with regular summaries of the impact of the policy on the practice of the school. The SENDCo and the head teacher hold regular meetings to review the work of the school in this area. In addition, the SENDCo and the named governor with responsibility for special needs also hold regular meetings. Typicality information is collected by the Senior Leadership Team and pupil and family/carer questionnaires inform planning of future provision.

The role of the Local Governing Committee (LGC)

The governing body challenges the school and its members to secure necessary provision for any pupil identified as having special educational need and ensure that funds and resources are used effectively.

The LGC has decided that children with special educational needs will be admitted to the school in line with the school's agreed admissions policy.

The Governing Body reviews this policy annually and considers any amendments in light of the annual review findings. The Head teacher reports the outcome of the review to the full governing body.

SEND Governor: Mrs Alison Glen-Ravenhill

Complaints

Any complaints should be dealt with using the guidance in the school Complaints Policy.

Incidents of bullying are dealt with after guidance from the school's Anti-Bullying Policy.

Independent advice can be sought through SENDIASS (link below)

Further information and support:

[Local Offer: Special Educational Needs and Disabilities \(SEND\) | North Tyneside Council](#)

North Tyneside SEND Local Offer brings together information for families/carers with a child or young person (0-25) with special Educational Needs and or Disabilities (SEND). The local offer brings together in one place

information about education, health, social care, transport, leisure activities and things to do and gives details how to access these services. The local offer is a statutory service provided by North Tyneside Council, each year it must be reviewed by families/carers, children and young people.

The Special Educational Needs and Disability Information, Advice and Support Service (**SENDIASS**) provide advice and information to young people, and families whose children have Special Educational Needs. They provide impartial and factual support on all aspects of the SEND framework to help families play an active and informed role in their child's education. Tel: 0191 643 8317/8313

Other helpful websites:

Schools and families can access information, advice and training materials that have been developed through the Department for Education's voluntary and community sector grants programme. NASEN provides an SEN Gateway that enables access to a broad range of materials and support services across the range of SEN (www.sendgateway.org.uk).

The Excellence gateway provides access to resources to support professional development in the FE and Skills sector (www.excellencegateway.org.uk).

Early Support provides a range of information materials to families/carers and professionals www.ncb.org.uk/earlysupport.

The following organisations provide advice, information and training on specific impairments:

- The Autism Education Trust for children and young people on the Autism Spectrum (www.autismeducationtrust.org.uk)
- The Communications Trust for speech, language and communication difficulties (www.thecommunicationtrust.org.uk)

The Dyslexia SpLD Trust on dyslexia and literacy difficulties
(www.thedyslexia-spldtrust.org.uk)

- The National Sensory Impairment Partnership for vision impairment, hearing impairment and multi-sensory impairment (www.natsip.org.uk)

MindEd (www.minded.org.uk) is an e-learning portal aimed at supporting all adults working with children and young people. It provides simple, clear guidance on children and young people's mental health, wellbeing and development.

GLOSSARY:

1. Terms

The terms below are commonly used when talking about Learning Support / SEND provision in schools. The terms have a wide scope in meaning and interpretation, and are often used interchangeably. However, there are some distinctions and a need for accuracy - particularly in formal recording / reporting and day-to-day liaison work with families, colleagues and other parties not necessarily as knowledgeable in this area.

Name		Brief Description
1.1	Additional Needs	The main term used within the school for needs presented by students that cannot be met by universal / Wave 1 approaches.
1.2	Special Educational Needs	A sub-section of Additional Needs referring primarily to the needs presented by students who have support in school for an area of SEND or 'Special Needs'.

2) Areas of Additional Need

The following terms can be used to break down Additional Needs into identifiable skills / deficit areas to which responses can then be directed.

Name		Brief Description
2.1	Concentration	Staying on task, ignoring distractions, focusing on the teacher, remembering instructions etc.
2.2	Organisational Skills	Physical organisation of self and equipment, planning ahead with work, thinking about consequences before actions etc.
2.3	Speech and Language	Understanding their <u>first</u> spoken language, acquiring new vocabulary, ability to express themselves clearly in sentences etc.
2.4	Reading	Ability to read a paragraph or more with ease and fluency.

2.5	Spelling	Ability to consistently spell common words and make a good attempt at unfamiliar words.
2.6	Extended Writing	Ability to write a correctly punctuated paragraph or more with ease and fluency.
2.7	Handwriting	Ability to write legibly, with ease and at a pace equivalent to peers.
2.8	English as Additional Language	Understanding English as a <u>second</u> language, acquiring new vocab etc.
2.9	Numeracy/Maths	Demonstrating a basic grasp of number, algebra, data, shape / space and measure etc.
2.10	Physical/Hearing/Visual	Ability to access all activities despite physical, hearing or visual difficulty etc.
2.11	Social	Forming and maintaining positive relationships, conforming to social norms etc.
2.12	Emotional	Showing awareness of own feelings and that of others, managing feelings, confidence etc.
2.13	Homework/Coursework	Ability to study independently, to produce work to deadlines etc.
2.14	Exams	Ability to prepare for and sit an exam without close adult support.

3) Identifiable Types of Difficulties, Conditions and Disability

With persistent additional needs, the following terms, definitions and codes for identifiable types of learning difficulties, conditions and disability are used – these are drawn from guidance. These labels are only assigned following assessment by an Educational Psychologist, Specialist Teacher, Medical Professional or other suitably qualified professional.

Name	Common Definition	SIMS Category
3.1 Specific Learning Difficulties (SpLD)	An umbrella term cover a wide range of identifiable difficulties, usually inherent, that an individual may present with. When these difficulties are clustered together, often more definitive sub-sets are used such as ‘dyslexia’, ‘dyscalculia’, ‘ADHD’ etc.	Specific Learning Difficulty – attach note if sub-set has been identified.
3.2 ADHD / Attention Deficit Hyperactivity Disorder	A specific learning difficulty typically presenting as exceptionally low concentration span, poor working memory, limited organisational skills with extreme impulsivity.	Specific Learning Difficulty – <i>with note “Attention Deficit Hyperactivity Disorder”</i>
3.3 ADD / Attention Deficit Disorder	A specific learning difficulty typically presenting as exceptionally low concentration span, poor working	Specific Learning Difficulty – <i>with note “Attention Deficit Disorder”</i>

		memory, daydreaming / procrastination and slower thinking through of concepts, questions etc.	
3.4	Attachment Disorder	A range of difficulties typically affecting mood, adherence to social norms and social relationships arising from a failure to form normal attachments to primary caregivers during early childhood (0-3 years). Also has causative link to incidences of abuse, neglect, sudden separation from / changes in caregivers during early childhood.	Other Difficulty / Disability – <i>with note “Attachment Disorder”</i>
3.5	Autistic Spectrum Condition	A psychological condition presenting itself in a variety of forms (Autism, Asperger Syndrome, Pervasive Development Disorder – Not Otherwise Specified), typically including specific learning difficulties centred around	Autistic Spectrum Disorder

		limited empathy, fixated / literal thinking, limited ability to interpret language, limited ability to engage in a variety of social situations / experiences etc.	
3.6	BESD / Behavioural, Emotional and Social	A range of difficulties typically presenting as exceptional limitations in an ability to recognise and manage emotions linked in with a persistent inability to engage constructively in a variety of social situations / experiences etc.	Behaviour, Emotional and Social Difficulty
3.7	Dyslexic Tendencies	A specific learning difficulty typically presenting itself in one or more of the main areas of literacy – namely reading and spelling. Students will have difficulties with working memory and often organisational skills. A commonly used indicator is where there is a clear discrepancy	Specific Learning Difficulty – <i>with note “Dyslexic Tendencies”</i>

		between literacy skills and intelligence / general ability – though students of all ability levels may have dyslexia.	
3.8	Dyspraxia	A specific learning difficulty based around the brain’s transmission of signals that control gross and fine motor skills - typically affecting planning of movements and co-ordination. Can also impact on language development.	Specific Learning Difficulty – <i>with note “Dyspraxia”</i>
3.9	Dyscalculia	A specific learning difficulty typically presenting itself in one or more of the main areas of Math / numeracy – namely use of symbols, acquiring arithmetical skills particularly those requiring use of working memory, and spatial understanding. On the surface, these often relate to basic concepts such as: telling the time, calculating prices and handling change, and	Specific Learning Difficulty – <i>with note “Dyscalculia”</i>

		measuring and estimating things such as temperature and speed.	
3.10	Hearing Impairment	Difficulties based around fully or partially reduced functioning in one or both ear's ability to detect and/or process sounds. Caused by a wide range of biological and environmental factors, loss of hearing typically arises in young people from a genetic / biological condition or injury to part/s of the ear.	Hearing Impairment
3.11	Moderate Learning Difficulties	Definitions of Moderate Learning Difficulties vary. However, a common understanding is that there must be substantial difficulties (3+ years below standard progress) in two or more of the following areas: literacy, numeracy, speech and language, social skills, memory, concentration -	Moderate Learning Difficulty

		typically in conjunction with an exceptionally low score on an individual test of intelligence and notable low self-esteem / independence in learning.	
3.12	Oppositional Defiant Disorder	A psychological condition presenting itself as an ongoing pattern of disobedient, hostile, defiant and deliberately subversive behaviour toward authority figures / systems of authority which goes beyond the bounds of normal childhood behaviour. Often linked with ADHD and can develop into other more severe conditions such as Conduct Disorder.	Other Difficulty / Disability – <i>with note “Oppositional Defiant Disorder”</i>
3.13	Physical Difficulty	Difficulties based around a full or partially reduced muscular-skeletal functioning in part/s of the body. Caused by a wide range of biological and	Physical Difficulty

		environmental factors, this type of difficulty typically arises in young people from a genetic / biological condition, a medical condition or a significant injury.	
3.14	Speech, Language and Communication Needs	A range of specific learning difficulties related to all aspects of communication in children and young people. These can include difficulties with fluency, forming sounds and words, formulating sentences, understanding what others say, and using language for socially and learning.	Speech Language or Communication Need
3.15	Visual Impairment	Difficulties based around fully or partially reduced functioning in one or both eye's ability to detect and/or process images. Caused by a wide range of biological and environmental factors, loss of vision typically arises in young people from a genetic / biological	Visual Impairment

		condition or injury to part/s of the eye.	
--	--	---	--

The following two areas are not classed as a learning difficulty, condition or disability but are a formally identifiable area of need.

3.16	English as an Additional Language	Referring to students who were born in Britain for whom English is not the first language as home <u>and</u> for students not born in Britain, having arrived in the country after the acquisition of their first language (typically 5 years old or over).	EAL	Other Difficulty / Disability – <i>with note “EAL”</i>
3.17	Medical Needs	Refers specifically to students with a medical condition that is permanent / ongoing and is likely to interfere with attendance to school and participation in a full mainstream curriculum.	Med	Other Difficulty / Disability – <i>with a note naming medical condition</i>

4) Graduated Approach

In line with the SEND Code of Practice, schools are to provide graduated responses to additional needs within the student population. These are briefly described below:

Type		Description
4.1	The Graduated Approach	The graduated approach is North Tyneside's approach to supporting children and young people who may have additional needs. There are three levels of support depending on the child or young person's needs. We use an Assess, Plan, Do, Review model to assess needs and implement appropriate support.
4.2	Universal	This is support that is available to all young people as part of the graduated approach
4.3	Targeted	This is additional support that is available to support young people with specific needs. This level of support may require a referral and have a criteria to meet to access support. Young people accessing targeted support should also continue to access universal support.

4.4	Statutory	This is specialist, statutory support for a small number of young people who require an EHCP. Young people accessing statutory level support should also have access to universal and targeted support.
4.5	EHCNA (Education, Health and Care Needs Assessment)	Students who have received targeted support and who, through agreement of, families/carers, leadership team and external agencies (including specialists) are referred for EHCN Assessment with a view to acquiring an Education, Health and Care plan– this process can take time to complete – 6 weeks for the local authority to consider whether assessment is appropriate and then 20 weeks to agree a final plan.
4.6	Education, Health and Care Plan (EHCP)	An EHCP is a legal document which describes a child or young person’s (aged up to 25) special educational needs, the support they need and the outcomes they would like to achieve.

5. Core Practices and Processes

There are a number of core practices and processes that are undertaken in order to identify, respond to and review additional and special educational needs within schools.

Practice / Process		Description
5.1	Access Arrangements	Additional support for students sitting exams / controlled assessments.
5.2	Additional Needs Register/SEND Register	A document holding information on all students identified as having additional needs.

5.3	Annual Review	A legally-binding yearly review of needs and support arrangements for a student with a Statement of SEN. Involves written reports and a meeting between all relevant parties.
5.4	EHA	An assessment process, through completion of an Early Help Assessment form, used by the any professional when referring to external agencies and designed to bring health and education services together in a 'Team around the Family (TAF) approach.
5.5	Health Care Plan	A document holding information on a student's medical needs with advice on responses where necessary.
5.6	In-class Support	Strategies and additional staffing put in place to ensure the inclusion and achievement of a student or group of students in the mainstream classroom.
5.7	Provision Map	A document to plan and record actions being undertaken to meet the additional needs of students.
5.8	Internal Report	A report completed by teachers / support staff to inform an Annual Review.
5.9	Intervention	Small group or individual programmes of study for students with identified additional needs.
5.10	Liaison	Any work undertaken that involves communication and collaboration with families/carers, colleagues and external agencies to ensure the inclusion and achievement of a student or group of students with additional needs.

5.11	Personal Educational Plan (PEP)	A document to plan and record actions being undertaken to ensure the well-being and progress of students registered as 'Child in Care' / 'Looked-after Child'.
5.12	Standardised Test	A test of intelligence or skill area measured against established norms / averages for that age group. A standardised test will typically lead to a 'standardised score', 'age equivalent score' and a 'percentile rank' which can inform psychological / diagnostic reports.
5.13	Education, Health and Care Plan (EHCP)	A legally-binding document outlining funding and provision to be implemented by the school and other agencies in support of a young person, determined by formal assessment.
5.14	Support Plan	For children at SEN Targeted Support Stage (K) , this is a child-centred plan written and agreed by you, your child, school staff and perhaps other professionals. The plan sets out how everyone involved will work together to help your child make progress.
